

<b>Requirement</b>	<b>Requirement Satisfied (Yes/No)</b>	<b>Vendor Response/Submission/Comments</b>
<b>§170.302.m: Patient-specific education resources</b>		
Provide a unique patient record to be used for the testing of this module only.	<b>Yes</b>	See Below
Select Test Data from: - TD170.302.m	<b>Yes</b>	See Below
Provide identification of two or more types of patient-specific education resources available for this test.	<b>Yes</b>	See Below
Provide unique test data elements to be used for the testing of this module only. 1) All test data elements shall be in accordance with the examples found in TD170.302.m.	<b>Yes</b>	See Below
Provide instructions on how to use the EHR functions to 1) Select a patient. 2) Electronically identify patient-specific education resources based on, at minimum, data elements included in the patient's: <ul style="list-style-type: none"> <li>• Problem list</li> <li>• Medication list</li> <li>• Laboratory test results</li> </ul> 3) Provide these patient-specific education resources to the patient.	<b>Yes</b>	See Below

**1) Select a patient.**

USE ANDERSON, JANET AND BRENT, NORA

**Example Data Elements - Set 1**

- 🕒 Problem: Type II Diabetes
- 🕒 Medication: Avandia
- 🕒 Laboratory Test Results: Fasting Blood Sugar: 128 mg/dL

**Example Data Elements - Set 2**

- 🕒 Problem: Asthma
- 🕒 Medication: Azmacort
- 🕒 Laboratory Test Results: Sputum culture: No organisms present

The screenshot displays the Vista CPRS interface for patient ANDERSON, JANET (ID: 1 EAST 18101-A). The patient's primary care team is unassigned, and the attending physician is King, Matthew Michael. The interface shows a list of signed notes, with the most recent note dated June 13, 2011, at 19:22, titled 'GENERAL VISIT'. A red circle highlights the 'PATIENT EDUC RESOURCES' template in the 'SHARED TEMPLATES' list. Another red circle highlights the 'Notes' tab in the bottom navigation bar. The system tray at the bottom right shows the date and time as 4:30 PM on 6/13/2011.

The screenshot displays two overlapping windows. On the left is the Vista CPRS interface, showing a patient's medical record for 'MATT'S\_DM\_ASA\_ALLERGY'. A red circle highlights a section titled 'TO ACCESS PATIENT PRINTABLE PATIENT RESOURCES ON THE DESIRED ITEM BELOW THE FOLLOWING PATIENT RESOURCES WERE ACCESSED:'. This section lists several resources with checkboxes, including 'TYPE 2 DIABETES MELLITUS', 'ADVANDIA MEDICATION USE', 'LABORATORY: GLUCOSE (HIGH)', 'ASTHMA EDUCATION', 'ADMCOAT INHALER', 'LABORATORY: SPUTUM CULTURE RESULTS', and 'ADDITIONAL PATIENT EDUCATION MATERIALS (MEDICATIONS, PROBLEMS, LABORATORY)'. On the right is the MedlinePlus website search results page for 'DIABETES TYPE 2'. The page features the MedlinePlus logo, navigation tabs for 'Health Topics', 'Drugs & Supplements', and 'Videos & Cool Tools', and a search bar. The search results are categorized under 'Diabetes Type 1' and include a list of 10 results. The first result is 'Diabetes Type 1 (National Library of Medicine)', which explains that diabetes means high blood glucose and that Type 1 diabetes is an autoimmune condition where the pancreas does not produce insulin. The second result is 'Diabetes diet - type 2', and the third is 'Type 2 diabetes', which notes that Type 2 diabetes is often associated with being overweight and does not respond correctly to insulin.

2) Electronically identify patient-specific education resources based on, at minimum, data elements included in the patient's:

- Problem list
- Medication list
- Laboratory test results

3) Provide these patient-specific education resources to the patient.
